

The Pursuit of Excellence

Automated **VHP Generator** for bio decontamination

- Generates dry disinfection vapour of H₂O₂ based disinfectants.
- Gas like diffusion and uniform exposure.
- Enhances standard bio cleaning process

SATEJTM

www.radiantinnovations.in

EASY TO HANDLE

Plug-and-play mobile unit.

Touch screen HMI for easy start-up and device set-up.

SECURED PROCESS

Digital registration of different variables that will ensure cycle has been properly performed.

Digitally controlled dispensing & disinfection process cycle.

Reproducible results

FEATURES

- Ultra low consumption: 200ml/1000 ft³ - 7ml/m³
- Treatment volume of space up to 300m³/10500 ft³
- Microbiologically validated process ensures Effective destruction of pathogens & multi resistant microorganisms.
- Uses medical grade clean air
- Complies with aseptic area & sterile area norms for airborne disinfection process as well as device.
- Absolutely safe for use in presence of OT/medical equipment.

DIGITAL USER INTERFACE FOR AUTOMATED PROCESS

- Enter room size & set the volume of room under the treatment.
- Pour required solution advised by the machine.
- Delayed start to leave the premises & Auto OFF operations.

CAN SAVE UPTO 20 DIFFERENT ROOM SIZES.

MATERIALS & SPECIFICATIONS

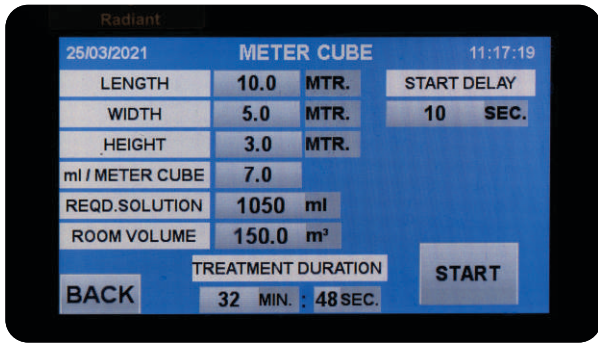

- All stainless steel unit
- Easy to refill or replace disinfectant container.
- All key components in SS316 : Nozzle assembly
- liquid line parts
- Liquid and air line tubing: Medical grade
- Power supply : 5amps, 230Vac, 50Hz/ 60Hz
- Dimensions : 441mm L X 415mm W X 800mm H
- Empty weight : 41kg

*specifications are subject to change

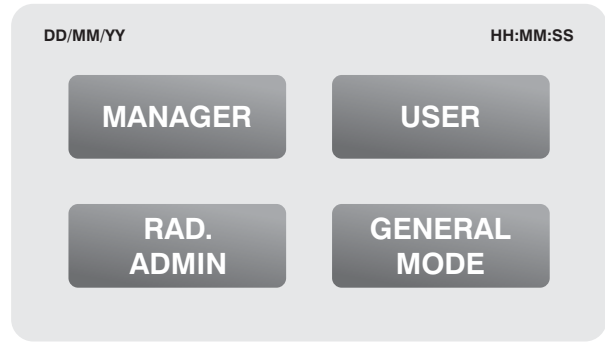

APPLICATIONS

- Hospitals: Operation Theatres, ICUs
- Pharmaceutical Mfg. Plants : Sterile areas
- Laboratories : Microbiology, Tissue Culture
- Bio decontamination Treatment again Disease Epidemic

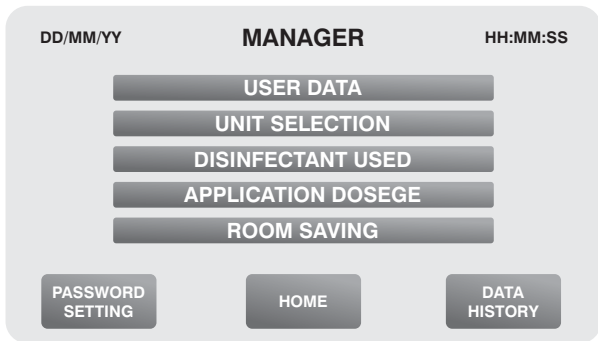

INSIGHT INTO USER FRIENDLY, EXTENSIVE PROGRAM

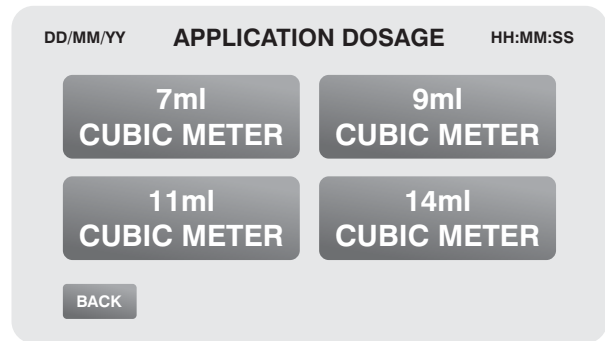

Program Touch Screen

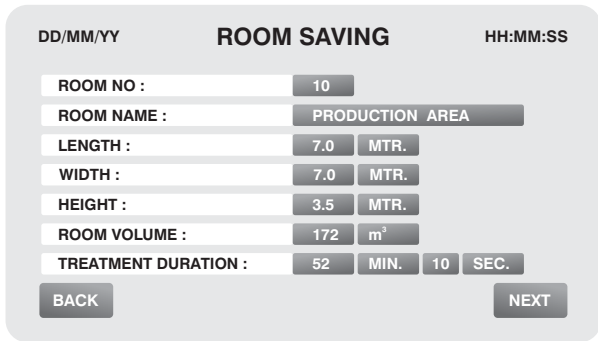

Different user access rights with password protection

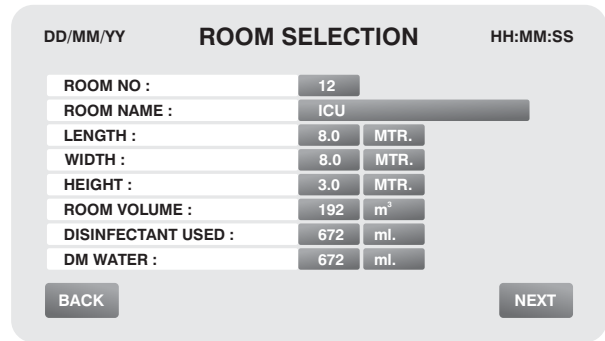

Manager at customer end can set various cycle Parameters and save it.

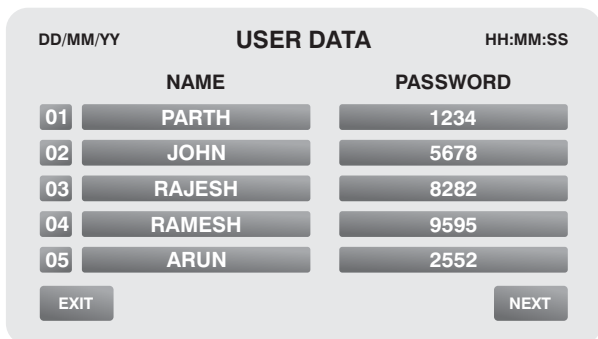

Optional application dosages settable In addition to standard dosage

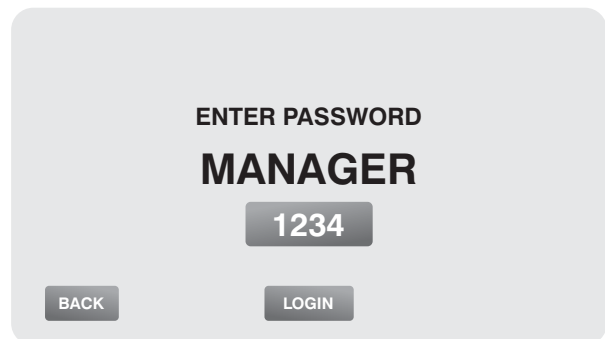

Machine can save up to 20 different room sizes.

User can identify pre saved room with Room no and name.

Offers up to 10 different users password Protected access.

Manager's access rights password protected

DD/MM/YY **METER CUBE** HH:MM:SS

LENGTH :	5.0	MTR.	START DELAY	
WIDTH :	5.0	MTR.	30	SEC.
HEIGHT :	4.0	MTR.		
ml. METER CUBE	7.0			
REQD. SOLUTION	700	ml.		
ROOM VOLUME	100	ml.		

BACK TREATMENT DURATION 21 MIN. 53 SEC. **START**

Enter room size or choose pre saved room for Treatment & machine offers auto calculated process Parameters such as volume of required dilution, Treatment duration to proceed with the cycle.
