ADVANCED **AUTOMATED** DISINFECTION SYSTEM

YANTRATM 09

www.radiantinnovations.in

CE

ADVANCED AUTOMATED DISINFECTION SYSTEM

- Dry aerosol fog of oxidizing free radicals out of H₂O₂ disinfectants
- Gas like diffusion with high volume output
- 3D contact with large area coverage accuracy, continuous running: 60 minutes
- Very thin film deposition, no excessive wetness
- Space treatment : Up to 16000 cuft
- Safe for medical equipments

Technical Specification:

- Throw 50ft, 28ft height
- Ultra low Disinfectant solution consumption: **200ml/1000cuft - 7ml/m³**
- Automatic dosing, 45ml/minute flow rate
- Motor Housing: Special Cooling vents for air colling of turbo motor
- Cartridge type filters: Easily removable and cleanable
- Solution Tank Assembly: 9 Liter, SS Gr. 316
- Delay Start & Auto Switch Off Timer : 0 - 60 Min

Applications:

- Hospitals: Operation Theaters, ICUs
- Pharmaceutical Plants: Sterile areas
- Laboratories: Microbiology, Tissue Culture
- Food Processing, Animal Houses, Hatcheries
- Disinfection Treatment again Disease Epidemic

Yantra 09 + Rotoplus Turntable (09) Rotates

360 degree with fogger machine placed at its top, with unique technical feature of uninterrupted power supply to fogger machine even while in rotation.

YANTRA™ 09

+ Rotoplus Turntable 09
(WITH LOCK ATTACHMENTS)

ROTOPLUS™
TURNTABLE

FEATURES

- Enhances fogger machine's space coverage capacity multiple times (almost 4 times)
- Uniform treatment of entire space/air.
- Results in reduction of no of machine required per area/space while treating large areas.
- Saving of time taken for treatment.
- Validation of aerial treatment becomes easier

SPECIFICATIONS

- Weight carrying capacity while in rotation – 20kg
- Power supply – 220/230v AC , 50 or 60hz.
- Machine body - stainless steel.
- Rotation speed – 1 rpm.
- Technical specification may change without notice.
- 360° aerial treatment, 24000cuft capacity
